What are our Business Goals?

-  Increase Revenue Stability and Market share
-  Improve Course Completion Rates
-  Optimise Instructor Performance
-  Enhance Payment Success Rates and Refund

Database Design

- Designed using normalisation principles to avoid data redundancy.
- Key Relationships:
 - One-to-Many: A customer can enrol in multiple courses.
 - Many-to-Many: Instructors can teach multiple courses; students can book multiple tutoring sessions.
 - One-to-One: Each order has a corresponding payment record.

Challenges and Solution ⚡

🎯 Further normalisation for better efficiency

Customer Spending Behaviour

Revenue By Country

Sales and Revenue

- **Initial Growth**

Revenue starts relatively low but shows an upward trend until Month 6-7.

- **Seasonality Effects**

The **peak** in Month 9-10 suggests the promotional event was effective. It also might happen because of the holiday season, or new course launch.

- **Revenue Drop-Off**

The sharp decrease after Month 10:

- End of a promotional campaign
- Decreased customer engagement
- Issues with customer retention or competition

Sales and Revenue

Best-Selling Courses

📈 High demand for entry-level **Spanish courses** - Huge Market for Beginners

💰 **English & Mandarin** Are Key Revenue Drivers

Challenges & Solutions ⚡

▼ Retention Drop - Fewer learners continue to advanced levels.

🎯 Encourage Progression - Offer bundled courses for long-term learning.

🚀 Boost Engagement - Add gamification & AI feedback to retain learners.

Sales and Revenue

Payment Status Breakdown

📈 The majority of transactions fall under **Refunded** and **Successful**, indicating that payments are generally processed, but a significant portion is refunded.

💰 **Failed payments** still account for a substantial amount, which may indicate transaction issues, declined cards, or customer payment errors.

Solutions ⚡

▼ **Analyse failure patterns to address recurring issues with payment methods.**

🎯 Review customer feedback and policies to reduce unnecessary refunds

BUSINESS INSIGHTS

Student Progress Monitoring

Student Progress - Enrollment Analysis

Advanced-level courses have significantly lower enrollments

The English Beginner and English Intermediate courses have the highest enrollments, both close to 60 students, indicating a **high demand** for learning English.

Customer Involvement in Tutoring Sessions

Completion Rate Analysis

Using a **60%** progress threshold

- Mandarin Beginner (Course 7) had the highest completion rate (38.57%).
- Spanish Beginner (Course 4) had the lowest completion rate (18.84%).

Instructor Performance

Actionable Next Steps

Reduce Refund and Failure Rates

- Investigate refund seasons and adjust policies
- Improve payment processing

Enhance Course Engagement

- Introduce interactive learning features, AI-driven personalised learning, better courses

Optimise Instructor Performance

- Implement performance-based bonuses for top-rated instructors
- Assign the best instructors to struggling courses to improve completion rates

THANK YOU!
